Bringing our product to limelight

School admin deal with a daily barrage of tasks, big and small. Without a system for prioritization, ease the regular work and increase turnover. That's why we developed MSPEducare, a customizable school management software erp.

MSPEducare is no ordinary platform. Before developing it, with doing R&D for huge period of time, knowing the needs of the client and so on. We did an internal survey, noted the requisities, converted the ideas as an application, which is named MSPEducare.

Briefing MSPEducare

What makes educare different?

Our long term value is proven with a solution that exceeds your needs now and in the future at a cost that fits within your budget.

Combined with our exceptional retention rate that provides confidence it is a solid long-term investment.

Powerful data analysis and state reporting including robust, adhoc reporting how you want to see it, when you need it. At its core, our solution is communication-driven that promotes interaction between parents & staff so that everyone is focusing on the same goal -- providing the best education possible for all your students.

PRODUCT FEATURES

MSPeducare compactly designed for administrative tasks. Admission module provides more lucid and reduces human errors. All schools started adapting to Online class during pandemic, MSPeducare is not an exception, it has its best feature of virtual class.

Notice board plays main role in school campus. The announcement module never fails in sharing information's. Attendance , Timetable and Homework are vital part in students life. MSPeducare gives smooth experience while handling these modules.

Fee module track records of students past, future, and current fee billing details with printing facility. Most Importantly, We also provide Inventory , Transport , Auto Payroll , Reports (List and Chart),Auto generate Certificate modules.

Crucial talking points

Paper Vs Digital

While digital technology has proliferated, documents, letters, and other forms of paper communication have yet to be replaced wholesale by electronic communication. ... Digital technology has helped reduce paper consumption, save nature by replacing paper to digital form. Which also reduce the COST and reduces rework by which the TIME can be utilized most-valuably. Hence Digital Leads the Traditional way .

Why MSPEducare

- Eliminate redundancy and costly third party interfaces.
- Customizable for your special needs.
- Implement on your own time frame and within your budget.
- Save operational costs by implementing proven paperless processes.
- Powerful data analysis option including graphs with drill down capabilities.
- Instant access to vital information through your education dashboard.
- Interactive portal for parents, teachers, and students.

Factors to consider

Reduce paper work

The Activities are captured online then & there and feed in the stack of our application . By which the manual documentation can be neglected

Notification AI Robot

Our AI algorithm trigger, notifications to respective staff or parents. Important activities which are been notified are namely Fees paid, Leave approved, timetable changes, online class scheduled etc.

Auto attendance mode

which saves 10 mins of marking student attendance in every period and ensure a smooth flow of operations and keeps a track of each employee's performance and efficiency automatically.

crystal clear/ flexible fees flow

Parents can track instantly the actual fees, paid vs unpaid and Administration can manage the accounts in a single place.

Accounting at finger tips

Accounts module which give hands to the admin in maintaining the inflow and outflow of the money within the administration. Which also includes the handling of Purchase, Sales, Fees, Payroll and so on ...

generate certificate

by browsing and use our certificates/doc template can avoid additional paying to external designer 30k/year

Transport made easy

Verily secured auto vehicle tracking system makes our application stands a step above , providing a safer feel to the parents and ease the payment of vehicle trip based on the location/destination .

Multiple platform

Windows, Android, iOS, app store, linux
